POWERFUL SOFTWARE TO TEACH COMMUNICATION SKILLS, PROMOTE CONFIDENCE AND PROVIDE INDEPENDENCE
COMMUNICATION SOFTWARE

TD SNAP

TD Snap is the pinnacle in communication software for symbol-supported communicators and is designed to be the easiest to use, most intuitive, and consistently arranged solution available on the market, for both the user and the communication partner. Individuals of all ages with speech and language disabilities, including those with Autism, Down Syndrome, Cerebral Palsy, and other intellectual disabilities, can all benefit from TD Snap.

Communicator 5

Communicator 5 is a comprehensive text and symbol-based AAC solution offering efficient, flexible communication for people with a wide range of language disabilities. It converts text and symbols into clear speech with a variety of voice options for more natural communication.

CURRICULUM SOFTWARE

Boardmaker 7

Boardmaker 7 takes the best of all previous versions of Boardmaker and rolls those features into one multi-platform, multi-language app designed for modern computers. Boardmaker 7 features a streamlined user interface that puts the tools you need at your fingertips. It includes the latest PCS and is backward compatible with all your old board activities. This new software will allow you create and deliver print or interactive curriculum and communication supports faster than ever.

Magic EYE FX

Magic Eye FX software has been designed to develop access and communication skills through creative play and gaming. The software supports eye gaze, speech, switching, touch, game controllers, mouse and keyboard inputs and offers 100s of thoughtfully designed activities.

Look To Learn

With over 40 specially created activities, Look to Learn is a motivating and fun way to get started with eye gaze technology. Every activity has been developed in consultation with teachers and therapists to improve access and choice-making skills.
